

Phoenix Chair

- The Phoenix is the most supportive and functional of the Seating Matters chairs
- Available in multiple manual & electric combinations
- Designed to give maximum support to the upper body through lateral and head supports, the Phoenix will also adapt to the changing needs of a person being rehabilitated or meet the long term needs of a progressive condition
- The unique adjustability allows the Phoenix to be used with individuals of different dimensions and with varying needs which is ideal for use in acute wards or changing environments
- The adjustable lateral, shoulder and head supports can conform to the person's individual posture and position with fast and easy adjustments
- With tilt in space and adjustable components, the Phoenix will meet a range of individual support needs, sizes, and levels of mobility making it ideal for multiple users
- Used in rehabilitation settings, it can assist in the development and maintenance of independence or for those with progressive conditions; it can provide additional support as necessary
- Effective for adults with the following disabilities and conditions: Cerebral palsy, Spina bifida, Spinal cord injury, Parkinson's disease, Motor neurone disease, Stroke, Multiple sclerosis, Alzheimer's disease, Advanced dementia & Osteoporosis
- Effective for seating clients with the following postural conditions: Pressure ulcers, Reduced upper body tone, Kyphosis, Scoliosis, Muscle contractures & Oedema
