

Cushion - Seat - Memo Gel

- Control your body temperature while seated with this memory gel seat cushion.
- Dual-sided design ensures adaptability for both hot and cool days.
- Allows you to enjoy the cooling effects of the gel-infused memory foam on hot days by placing the silica gel layer on top, or flip it for the comforting, moulding embrace of memory foam on cooler days.
- Incorporates a silica gel layer that actively controls your body temperature.
- Its adaptability means you can bring the cooling, warming and supportive benefits of the cushion with you, making it your perfect travel companion
