

# PRODUCT UPDATE

## Aspire VIDA Wheelchairs - Feature Upgrades!

The VIDA range has been upgraded to now offer the following features as standard:

- Quick-release wheels: these lower the weight of the heaviest part when transporting making these amongst the lightest transport chairs in the market;
- Anti-tippers: now come as standard as a safety improvement on all models; and
- Pattern Stitched Upholstery: improves padding durability and aesthetics, and makes the upholstery easier to fold for storage and transportation.

New Upholstery	Anti-Tippers	Quick Release Transit Wheels
